

AN INTERNET BUILT FOR EVERYONE, BY EVERYONE.

Threefold has created the **largest peer-to-peer cloud on the planet**, laying the foundation for a more sustainable, smart and sovereign digital world where everyone can participate and prosper.

Live and distributed in 21 countries and expanding.

THE WORLD WIDE WEB HAS BECOME DANGEROUSLY TANGLED.

Recent events have shown us that we no longer use the internet — it uses us. Our data and identities are mined and profited from, kept in data centers that we don't own or control, and the digital spaces we're used to are no longer safe. The web needs a serious reboot, and it needs it now.

48% OF THE WORLD'S POPULATION LACKS INTERNET ACCESS

80% OF THE INTERNET IS OWNED BY LESS THAN 20 COMPANIES

WE HAVE BECOME PRODUCTS AND DO NOT OWN OUR DATA OR CONTENT

EXISTING CLOUD CONSUMES NEARLY 10% OF THE GLOBAL ENERGY SUPPLY

A REIMAGINED INTERNET FOR THE NEXT GENERATION

DECENTRALIZED STORAGE & COMPUTE

The world's largest peer-to-peer cloud with over 80M GB of decentralized storage. Users can add capacity to the grid on their own or use our certified **3Node**, powered by Hewlett Packard Enterprise.

AUTONOMOUS SMART CONTRACT LAYER FOR IT

Efficiency tested, developer approved. ThreeFold's automated IT management system reduces both workload inefficiencies and the impact on the environment.

COMPREHENSIVE DIGITAL SOVEREIGNTY

The ThreeFold infrastructure shifts from a data-centric model to a **human-centric one**, built on peer-to-peer interaction, data privacy and digital autonomy.

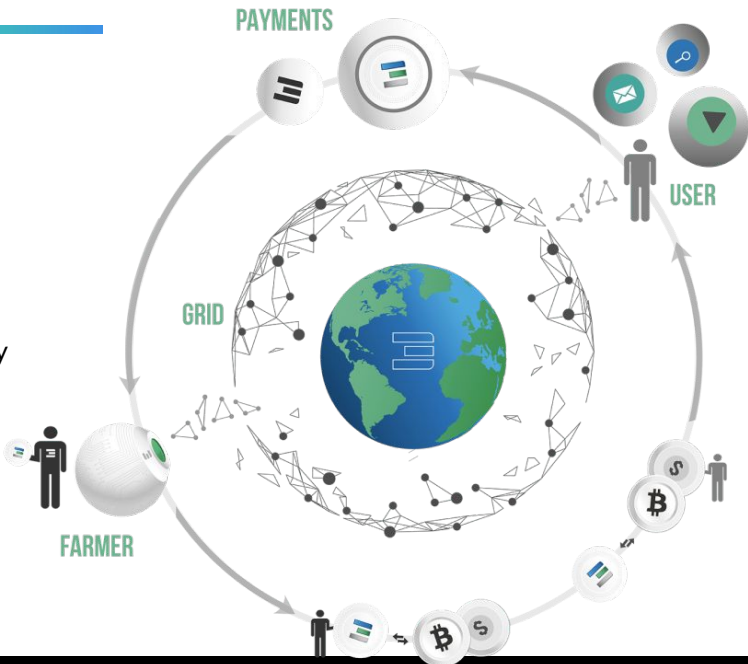

THE THREEFOLD TOKEN (TFT): STAKE YOUR CLAIM ON THE NEW P2P LANDSCAPE

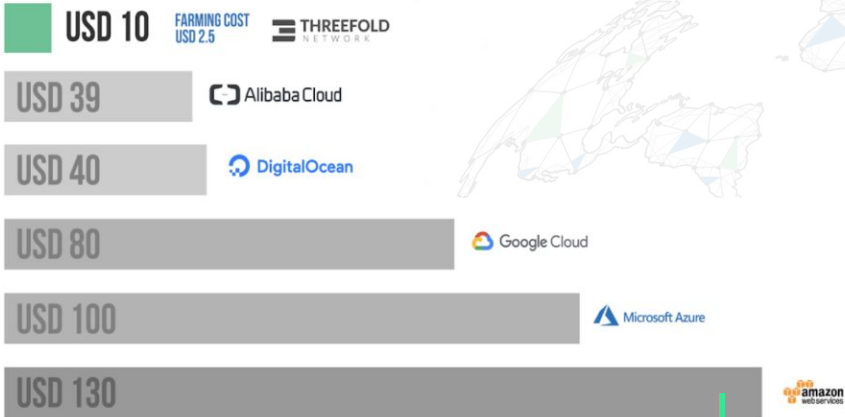

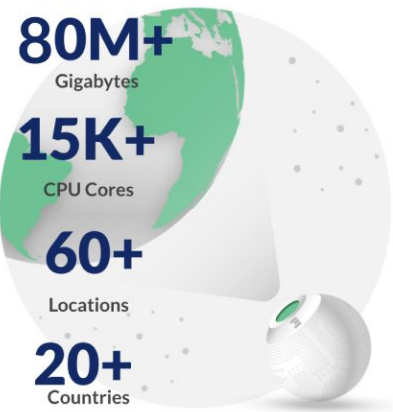

The **Threefold Token (TFT)** represents capacity on the ThreeFold Grid, and is used when storing files, managing a workload, or hosting an app. Capacity is farmed and offered to users at highly competitive rates. Individuals, enterprises, communities and even cities can purchase future capacity today to lock in cost savings and contribute to the grid's success.

TFT POWERED BY

AVAILABLE NOW ON

OPPORTUNITIES

ThreeFold Tech Equity Round

- €40M equity round
- technology backed investment
- > “make the internet possible”

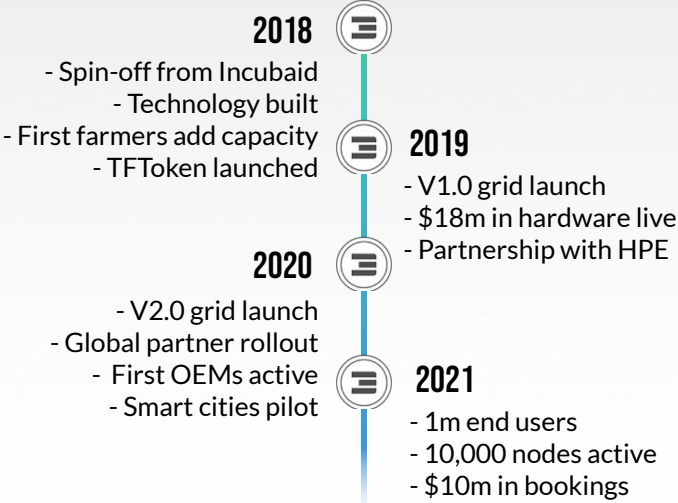

ThreeFold Farming

- become a farmer as part of upcoming STO (+€200m)
- or as a direct farmer, contact TFTech for help
- asset backed investment
- > “be the internet”

ThreeFold Tokens

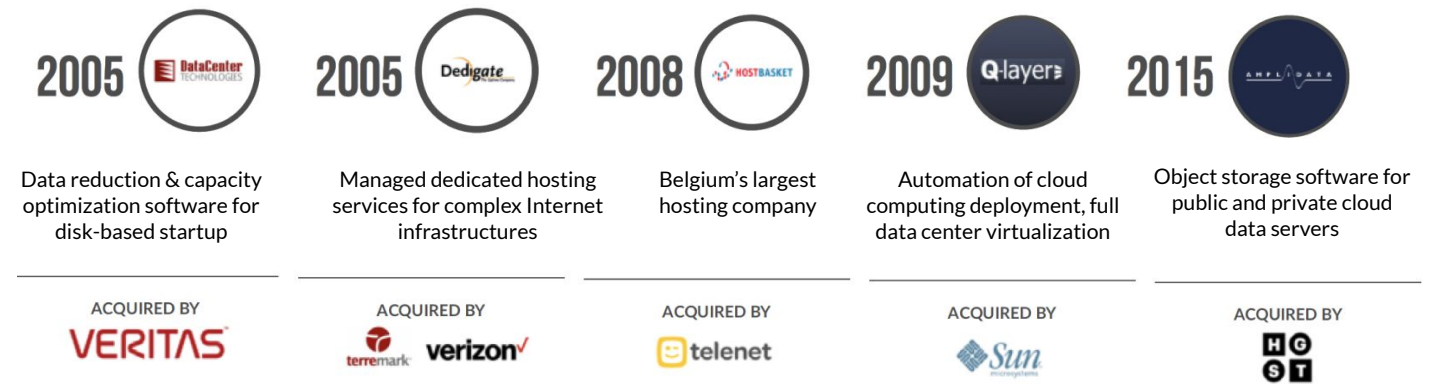

- Invest in future internet capacity and a growing ecosystem
- only \$35m marketcap today
- > “use and grow the internet”

ROADMAP

TEAM

Six exits to large IT companies for over \$500M | Demonstrated success in internet technology & infrastructure

TECH PARTNERS
